AWAD ISSA

+972599021851 | Ramallah, Palestine | awadissa403@gmail.com |
***LinkedIn:** linkedin.com/in/awadissa | **GitHub:** github.com/Awad-Issa*

Professional Summary

Motivated and **detail-oriented Software Developer** with solid experience in designing and building **modern web applications**. Strong **problem-solving** skills, a passion for **continuous learning**, and a proven ability to **adapt** to new technologies and project requirements. Dedicated to delivering **high-quality**, **efficient**, and **user-centered solutions**.

Technical Skills

- **Languages:** Java, Python, JavaScript, HTML, CSS
- **Frameworks & Libraries:** Spring Boot, React, Django, Next.js
- **Databases:** MySQL, MongoDB, PostgreSQL
- **Tools & Platforms:** Git, GitHub,Bitbucket, AWS, Maven, REST APIs, Postman, Jira
- **Other Skills:** Spring Security, JSON

Projects

Digital Sheep Management System

- **Technologies:** Java Spring Boot, React, MySQL, MongoDB, AWS, REST APIs, Lombok
- **Description:** A web application for managing sheep farms, tracking sheep details, relationships, and livestock data.
- **Features & Role:**
    - **Ewe, Ram, Lamb Management:** Automatic gender assignment, mother-child relationships, and offspring tracking.
    - **Pregnancy & Health Tracking:** Manage pregnancies, health status, and weights of sheep.
    - **Data Management:** CRUD operations for sheep, stored procedures, and validation for accurate record keeping.
- **Achievements:** Designed a **full-stack solution** connecting backend and frontend, implemented **complex relationship logic** between sheep entities, and ensured scalable data handling on MySQL/MongoDB with AWS deployment.

Smoke App – Smoke Purchasing Platform

- **Technologies:** Next.js 14, Tailwind CSS, MySQL, Prisma, NextAuth.js, Vercel
- **Description:** A web platform for managing smoke purchases with three roles: Super Admin, Distributor, and Supermarket.
- **Features & Role:**
  - **Super Admin:** Manage supermarkets and platform access.
  - **Distributor:** Add/edit/delete products, manage orders, update order status.
  - **Supermarket:** Browse products, place orders, track order history.
- **Achievements:** Developed a **role-based authentication system**, implemented **CRUD operations and order management**, and deployed the platform on **Vercel** with a scalable database structure.

Education

Dumlupinar University, Turkey — Computer Engineering | 2019 – 2023

AXSOS Academy, Ramallah — Full Stack Development Bootcamp | 2023

- **Immersive training in Python, Java, and MERN Web technologies**
- **16-week Bootcamp: 1,200+ coding hours, 100+ hours algorithms & data structures, 3 complete projects**
- **Hands-on experience with group activities, labs, and real-world projects**

Courses & Certifications

- **Master Spring Boot 3 & Microservices (Spring, Docker, Kubernetes)** – Udemy
- **Java Mastery Series (Java Fundamentals, Generics, Concurrency)** – Udemy
- **Clean Code & Software Security Principles** – Udemy
- **Git & AWS** – Completed courses in version control and cloud deployment
